

Protect yourself from scam calls

- ✓ **Hang up**
A fraudster that calls you may claim to be your relative or a representative from the bank. If you are not sure who you are speaking to, hang up.
- ✓ **Do not log in**
Never log in with BankID if someone calls you and asks you to do this. Also, do not give out codes from your bank token nor the PIN code of your bank card.
- ✓ **Do not trust the caller**
The caller may tell you that you are about to lose money or that a relative of yours is in trouble. Do not trust the caller, even if they have information about you.
